Job Title: Senior Software Developer

Location: [City, Country]
Job Type: Full-Time
Experience: 3+ Years
Salary: [Competitive | As per Industry Standards]

Job Summary:

We are looking for an experienced **Senior Software Developer** to join our dynamic team. The ideal candidate should have expertise in **[mention specific technologies, e.g., Java, Python, FastAPI, React.js, Azure, etc.]**, strong problem-solving skills, and the ability to lead development projects. You will be responsible for designing, developing, and maintaining high-performance applications, ensuring scalability, security, and efficiency.

Key Responsibilities:

- Design, develop, test, and maintain **scalable web applications** and software solutions.
- Lead and mentor junior developers, providing guidance and code reviews.
- Collaborate with cross-functional teams, including **DevOps, UI/UX designers, and product managers**.
- Optimize applications for performance, security, and scalability.
- Write clean, maintainable, and well-documented code following best practices.
- Troubleshoot, debug, and resolve software issues efficiently.
- Stay updated with emerging technologies and implement best practices.
- Participate in **Agile/Scrum** development cycles and contribute to sprint planning.

Required Skills & Qualifications:

- **Bachelor's or Master's degree** in Computer Science, Information Technology, or a related field.
- **3+ years of experience** in software development.
- Proficiency in **[mention required technologies, e.g., Python (FastAPI), Java, React.js, SQL, Azure, etc.]**
- Strong understanding of **RESTful APIs, microservices architecture, and cloud platforms**.
- Experience with **CI/CD pipelines, version control (Git), and DevOps practices**.
- Solid knowledge of **database management systems (MySQL, PostgreSQL, MongoDB, etc.)**.
- Excellent problem-solving and debugging skills.
- Strong communication, teamwork, and leadership abilities.

Preferred Skills:

- Experience with **containerization (Docker, Kubernetes)**.
- Knowledge of **AI/ML, Explainable AI, or cloud cost optimization** is a plus.
- Exposure to **SAP HANA, enterprise software solutions, or supply chain automation** is advantageous.

Benefits:

- Competitive salary and performance-based incentives.
- Flexible working hours and remote work options.
- Health and wellness benefits.
- Opportunities for professional growth and certifications.
- Collaborative and innovative work environment.
